PROFILE

I am a hard working third level student, currently going into my final year of study in DCU, studying Computer Applications and Software Engineering. I am a highly motivated and energetic person who is always looking for exciting opportunities to further my growth and experience.

CAREER HISTORY

DCU, Glasnevin, Dublin 9:

- I've worked with DCU on three separate occasions as a part time lab tutor.

- The first position entailed tutoring first year software engineering students in the Python programming language. The position lasted for two semesters, over the course of two modules, CA116 and CA117.

- This opportunity allowed me to enhance my communication skills, and gave me a deeper understanding of the programming language itself.

- The second lab position consisted of tutoring second year software engineering students during their CA296 Assembly language programming labs.

- Furthermore, many of the students I'd tutored the previous year were also in this lab. This made it easier to help students with their programming exercises, as I'd already built a rapport with some of the students.

Larchmont Shore Club, 1 Oak Bluff Ave, Larchmont, NY 10538, US:

- I worked here as part of a J1 program, I participated in during the summer of 2019.

- Firstly, I worked as a front waiter in the club's main dining room, serving club members food and drink.

- As well as that, I took on extra bartending and night security shifts.

- This was a fantastic opportunity, which enhanced my confidence and instilled me with a strong work ethic.

Crowne Plaza Hotel, Northwood Park, Santry, Dublin:

- I worked as a bartender in the hotel's main bar, as well as the function bar in the hotel, used for big events and weddings.

Slieve Russell Hotel, Cranaghan, Ballyconnell, Co Cavan:

- I worked as both a waiter and a bartender.

- I worked in Kells Bar, the hotels main bar, as well as the function bars in the hotel, used for big events and weddings.

EDUCATION

Leaving Certificate (2017):

Chemistry (Higher Level)	H1
Biology (Higher Level)	H1
Applied Maths (Higher Level)	H2
Maths (Higher Level)	H2
Art (Higher Level)	H3
English (Higher Level)	H4
Irish (Ordinary Level)	O3

ACHIEVEMENTS / QUALIFICATIONS

- I completed a J1 program in the summer of 2019.

- As mentioned as part of my work experience, I was lucky enough to be given the opportunity to tutor three separate computing modules over the course of my three years studying in DCU.

- During secondary school, I taught a basic computer class, to senior citizens every Tuesday after school. The program ran for three months and the participants learned everything from turning on a computer to setting up their very own email.

- I was also awarded a bronze medal Gaise Presidential, for completing various achievements including thirteen weeks of community involvement.

INTERESTS

- I enjoy playing in the DCU five-a-side league that runs every semester.

- I also enjoy going to the gym with my friends. The gym helps further my discipline, training with my friends helps boost my teamwork skills and the gym is good for my overall health and well being.

- Another pastime of mine is going on hikes. Over the course of my J1, my friends and I completed numerous hikes and trails across America, namely climbing to Clouds Rest in Yosemite National Park. I've also completed numerous hikes and trails in Ireland.
